

EnergyLogic Energy Auditor

EnergyLogic is building a network of part to full-time energy auditors to meet the exploding demand for energy auditing services.

Energy Auditors conduct comprehensive inspections of the energy efficiency of homes. Energy Auditors are a key part of the future of reducing the energy consumption of our nation. The skill set for an excellent Energy Auditor is both broad and deep.

Energy Auditors are:

- Detail oriented
- Able to see the big picture
- Able to communicate complicated concepts and ideas to others
- Naturally curious and relish an intellectual challenge
- Not afraid to get their hands dirty
- Deeply committed to saving energy

EnergyLogic staff members are:

- Committed to mission
- Part of the team but self-motivated
- Part of the best group of building science professionals in Colorado

Energy Auditors undergo the same training as Energy Raters and are fully certified as RESNET Energy Raters. EnergyLogic trains Energy Raters and Auditors from all over the nation. Our training is intense and ongoing; we never stop learning.

If you want to:

- Be part of the solution
- Join a great team
- Get into one of the most dynamic, fastest growing fields in existence today

We are developing our network of Energy Auditors, working on commission throughout the Front Range. These positions will range from part to full-time based on the initiative of the Auditor. Our model is perfect for those seeking to add to an existing trade, supplement income or not work a full-time position. We are very flexible and the positions require flexibility as well.

Ideal candidates have some exposure to building or real estate, are mature and can work in a flexible environment.

Contact us via e-mail with a cover letter and resume at steve@nrglogic.com and for details on our business model for this exciting arena.

About EnergyLogic

EnergyLogic Inc. is Colorado's largest home energy rating and auditing firm. With offices in Northern Colorado, Denver and Colorado Springs, EnergyLogic serves all of Front Range Colorado. EnergyLogic has grown into one of the most respected and engaged companies in the residential energy industry. With a highly trained staff of energy raters and specialists, EnergyLogic has performed energy ratings on over 10,000 homes in Colorado.

EnergyLogic works in new construction; performs energy analysis of existing homes and conducts training events for energy professionals and non-professionals around Colorado and points farther afield. EnergyLogic has a network of Rater-Partners working from Washington D.C. to Maui. In addition to training, EnergyLogic sells the rating community tools to conduct their business. It's all part of EnergyLogic's mission to be the best, most progressive and professional energy rating company in the country.
