Position	Energy Rater
Date	6/15/2006
Location	Denver, Northern Colorado, Colorado Springs
Full/Part Time	Full-time position 40/hr week
Description	<p>Energy Raters are responsible for assessing the performance of residential structures. Performance testing runs the gamut from basic blower-door testing to determine air-tightness to complete HVAC diagnostics and infrared thermography. Field personnel work closely with builder field personnel to correct deficiencies.</p> <p>EnergyLogic is an accredited Home Energy Rating System (HERS) provider and trainer working with a variety of programs both national and local. Information gathered in the field is processed with energy modeling software and reports are sent to clients outlining findings and recommending improvements when appropriate.</p> <p>The goal of EnergyLogic work is to be part of a builder's team assisting them in building more energy-efficient, comfortable and durable homes for their clients.</p> <p>EnergyLogic employees work as a team to provide our clients the best service possible. Continuous coordination with office staff is a key part of ensuring that information flows properly to our</p>

	clients. Continuous improvement in skills and knowledge is integral to success in our company.
Experience	While desirable, knowledge of residential construction is not required. Successful applicants will be trained by EnergyLogic staff.
Skills and Qualities	<p>More important than experience is the set of skills and qualities that an applicant possesses.</p> <p>The following is a list of attributes that are considered by EnergyLogic for employment:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Excellent communication skills <input type="checkbox"/> Ability to operate independently in the field <input type="checkbox"/> Ability to operate in a team setting <input type="checkbox"/> Positive outlook <input type="checkbox"/> Detail oriented personality <input type="checkbox"/> Physically fit <input type="checkbox"/> Good computer skills <input type="checkbox"/> Good driving record <input type="checkbox"/> Good verbal skills <input type="checkbox"/> Ability to write reports <input type="checkbox"/> Ability to give and take constructive criticism <input type="checkbox"/> A passion for our vision, cause and adherence to our guiding principles: <p>Vision:</p> <p>EnergyLogic envisions a future in which all homes have the least possible impact on the Earth.</p> <p>Cause:</p> <p>EnergyLogic is part of creating houses that are resource efficient, healthy and durable.</p>

	<p>Guiding Principles:</p> <ul style="list-style-type: none"> * We welcome diversity of people and opinion. * We respect team members and treat everyone fairly. * We listen to our clients and each other. * We question assumptions and consider alternatives. * We dare to be different, enemies of mediocrity. * Ideas come from everywhere. * Our client's problems are our opportunities. * We work to foster affordability for homeowners. * We do the maximum to save the Earth's resources. * Information is our product; we maintain our independence. * All our actions must be fiscally responsible. <p>We believe in our mission and each other. We are seeking people who are interested in contributing their energy to a growing, dynamic company that sees no limits to what we can achieve.</p> <p>The following characteristic is required of all who join our team: A passion for our vision, cause and adherence to our guiding principles.</p>
