A SIMPLE PROPOSAL...

When EnergyLogic performs a HERS® Rating on your home, for an additional low fee, we will **guarantee** the heating and cooling energy use of that home for **two years**.

It's that simple. We have confidence in you and we have confidence in ourselves.

The HERS index gives you a **measurable, marketable number** to contrast your home against other homes on the market, especially older homes.

The **ENERGYLOGIC GUARANTEE** puts this number into action, providing the buyer with a tangible sense of value in the score.
