

## Job Announcement

### Energy Professional Services, Technical Lead

At EnergyLogic, we love to learn about, discuss, teach and implement building science. We put our entrepreneurial talent and passion for green building together to offer a comprehensive set of services to raters and energy service professionals around the country.

We fondly refer to the Energy Professional Services Technical Lead as a ‘Rater Jedi Knight’. They will be the primary contact for our Rater Partner clients of EnergyLogic’s RESNET Providership. He or she will work directly with our rater partners, offering the technical leadership, quality assurance and other support (even moral!) that enable our clients to develop as energy professionals and grow successful companies. This position requires both technical expertise and excellent people skills.

- Technical Skills: We’re looking for a real energy geek who can contribute to EnergyLogic’s spirited conversations about building science, and will bring our enthusiasm and high standards to our Rater Partner clients.
  - Experienced RESNET Certified Rater (minimum of 2–3 years), with practical and as theoretical knowledge of building science as well as a variety of green building programs
  - Ready, with our training, to pass the RESNET Certified Quality Assurance Designee test within three months
  - Extensive experience with REM/Rate energy modeling software tool
  - Willingness and ability to master codes and program requirements that are relevant to the clients you are responsible for
  - Able to conduct the following analyses:
    - *Code Compliance*
    - *Tax credit analysis*
    - *What-if’s*
    - *Program compliance*
    - *RESNET Quality Assurance Reviews*
- People and Other Skills: EnergyLogic is unique as a Provider because we think of our “providees” as Partners in our mission to transform and professionalize this industry. Our Energy Professional Services Technical Lead will need to
  - Provide constructive and efficient Quality Assurance to our partners. To us this means identifying deficiencies as

opportunities for additional training to grow the Rater Partners' knowledge base

- Develop intimate and institutional knowledge of our partners and their businesses. You'll be mentoring brand new raters all the way to experienced business owners getting ready to make the transition to performing their own Quality Assurance
- Communication well in person, on the phone, and in writing. You'll need to be consistently pleasant, professional, and, if you are to fit in with the rest of our staff and meet our clients' expectations, witty.
- Organize your time effectively. Be willing to travel to exotic locations like Hawaii and Delaware.
- Speak publically and be willing to advance to position as a trainer

To our Rater Partners, the Technical Lead will be a guru, a sounding board, a building science consultant, RESNET Quality Assurance Designee and business advisor. In short, a Rater Jedi Knight. They are the IV that lets our Rater Partners receive the blood transfusion of the EnergyLogic 'way' which includes our institutional knowledge, our experience, and our philosophy of using the rater/auditor platform to make the world a better place. Our Rater Partners align themselves with EnergyLogic not only because they recognize our company's success, but because they trust us to provide them with the tools and inside knowledge necessary to help their company grow and succeed as well.

*Above all technical skills and building science knowledge, EnergyLogic is seeking candidates with real enthusiasm for solving problems and who genuinely derive their satisfaction from contributing to the success of others.*

EnergyLogic benefits include medical, dental and life insurance, philanthropic matching, an "Explore, Dream, Discover" fund to encourage our staff's many and diverse interests, and 4 weeks paid time off + holidays.

If you are interested in applying for this position, please send your resume to [Dianna.Heustis@nrglogic.com](mailto:Dianna.Heustis@nrglogic.com) with your name and "Energy Professional Services Manager application" in the subject line.
