

Subsidies and Rebates are available to EnergyLogic's **Production** Homebuilder Clients

Governor's Energy Office (GEO) Rebate

The Governor's Energy Office (GEO) is pleased to provide a \$300 per home rebate to all Colorado homebuilders who construct certified ENERGY STAR New Homes outside of the rebate territory of any Utility program and meet the rebate eligibility requirements for 2009.

More Information on the Colorado ENERGY STAR New Homes Program can be found at www.coloradoenergystarhomes.com
 More information about the Governor's Energy Office can be found at www.colorado.gov/energy

Rebates are paid directly to homebuilder. EnergyLogic will be pleased to help you with the necessary paperwork!

Xcel Energy Rebates and Subsidies

Xcel is providing \$460 to subsidize or buy down the cost of our Rater services. EnergyLogic will allocate this subsidy to cover our standard performance testing (2 inspection process) and reporting services (\$375), and cover costs specifically attributable to Xcel program requirements and reporting (\$85). Xcel will pay this subsidy directly to EnergyLogic only for homes that meet the mandates of the program. We will invoice you for additional necessary or requested services.

Builder Performance Path Incentive paid by Xcel directly to Builder after EnergyLogic has successfully demonstrated a home's compliance with the Energy Star program for homes enrolled on or after August 1st 2010.

- 80/85 – 76 HERS Index \$0
- 75 – 71 HERS Index \$360.00
- 70 – 66 HERS Index \$700.00
- 65 – 61 HERS Index \$1400.00
- Less than 60 HERS Index \$2200.00

Builder Incentives for Energy Star homes built in Boulder and unincorporated Boulder County are different than above. Please contact us for details
