

## EnergyLogic is hiring!

**Position:** Energy Rater

**Location:** Denver

**Type:** Full-time Salaried

### Description:

Energy Raters are responsible for assessing the performance of residential structures. Performance testing runs the gamut from basic blower-door testing to determine air-tightness to complete HVAC diagnostics and infrared thermography. Field personnel works closely with builder field personnel to correct deficiencies. EnergyLogic is an accredited Home Energy Rating System (HERS) provider and trainer working with a variety of programs both national and local. Information gathered in the field is processed with energy modeling software and reports are sent to clients outlining findings and recommending improvements when appropriate.

The goal of EnergyLogic work is to be part of a builder's team assisting them in building more energy efficient, comfortable and durable homes for their clients. EnergyLogic employees work as a team to provide our clients the best service possible. Continuous coordination with office staff is key to ensure that success in our company.

### Experience:

Knowledge of residential construction and working experience as a rater or auditor is preferred. Successful applicants will be trained by EnergyLogic team members but must have the skills and qualities listed below.

### Skills and Qualities:

- RESNET® and/or BPI Certified
- Excellent communication skills
- Ability to operate independently in the field
- Ability to operate in a team setting
- Positive outlook
- Detail oriented personality
- Physically fit – Able to lift 50lbs
- Excellent computer skills
- Good driving record (MVR requirements must be met)
- Good verbal skills
- Ability to write reports
- Ability to give and take constructive criticism
- A passion for our vision and mission

**Vision:** A world in which every person lives in a home that promotes happiness and security.

**Mission:** To meet our partners where they are and engage them in the journey of building the best possible homes.

We offer competitive salaries, four weeks of paid-time-off, subsidized health insurance, dental and vision care, iPhones, rater gear, and where appropriate, company cars and much more!
